

Florida Child Care Survey En Espanol

Parents, we know this is a brave new world for you. You may have lost your job. School is out. Child care centers are closed or you have removed your children from them. You have kids at home as you try to juggle work, homeschooling, and child care. We know that on the other side of this pandemic our world will not look the same.

We need your help. If Florida's child care industry is going to serve you well through the pandemic and beyond, we need a clear look at the child care landscape from your perspective.

This survey asks you to share your current child care set up and thoughts about what's next as Florida reopens the economy. This will help child care providers and state leaders start planning for the future to best serve you.

This survey is administered by The Children's Movement of Florida. We will safeguard your privacy and share high-level results publicly. Thank you for your contribution!

Question Title

1. What age are your children?

Under 1 year

1

2

3

4

5
